1. Review/Approval of Last Meeting Minutes & Tonight's Agenda

Notes: Matthew went over the last month's minutes. Don mentioned that the topic of rotating facilitator was mentioned more than once in the minutes. He just wanted to bring attention to what was agreed upon.

Bryan suggested exporting the chat at the end of the meeting and add it to the meeting minutes.
No edits to the agenda were requested and the meeting minutes were accepted.

2. Regarding facilitating the state CC meeting:
   - The chairperson of the Missouri Green Party will facilitate the state CC meetings (both scheduled and unplanned/emergency) for the remainder of the year 2026-2027.
   - If the chairperson is unavailable for the meeting, they will appoint a facilitator to lead the meeting.

Notes: Don says that last time we agreed we would we'd revisit this after three meetings. Paul seconded what Don said, as did Cris. She feels it's too autocratic to have just one person facilitating, and that rotating the role offers other members to get comfortable in doing the role.

Brittany stated that she believes we should move on from this as we are repeating ourselves and enough discussion has been had on this topic. Lauren asked that we move this to a vote.

The motion would be to keep the chair as the facilitator moving forward, including unplanned meetings.

Paul stated he is confused about this based on how the last meeting ended. Matthew reminded that we are following Roberts Rule that comments about others should be addressed to the chair. Paul was of the opinion that we had decided on revisiting on a rotational facilitator after a few months. Lauren shared that this was not voted on, it was tabled.

Don suggests that Roberts Rule may not work for our interaction and should not be imposed on the body. Brittany reminded that Lauren has raised the question and we should move to a vote as enough discussion has been had in this and the previous meeting.

Matthew asked who is in favor of the chair to facilitate until the end of this year: Brittany, Lauren, Bryan, Kuma, Matthew, Jerome and Cris. Those opposed were Paul. Don abstained. *The yay's carried, and the facilitator will now be the Chair for the meetings going forward.*

Paul asked for clarification about who will appoint the facilitator if they are unavailable. Matthew responded that the chair will do so.

3. Regarding chapter reports:
    - Chapter reports will be submitted to the secretary in writing prior to the meeting
    - Chapter reports will be shorted to 2 minutes per chapter

Notes: Cris says the health of the party stems from its chapters and that two minutes maybe won't be enough to explain a situation properly. Brittany responded that including long chapter reports during the actual CC meeting will cause us to not address the main parts of the agenda that we are trying to work on together. Barb suggested to keep them at 3 minutes and encourage people to not use their full time and pass it onto others, along with prior written reports sent to the secretary. Brittany is amenable to 3 minutes but with a strict timekeeper stopping it at 3 minutes maximum.

Jay commented in the chat that the trouble is that the chapter reports are of limited value because the time isn't spent productively networking with other chapters, it seems like a bragging contest and vanity exercise sometimes.

Matthew submitted the question to ask if we should submit written chapter reports prior to the monthly state CC and the verbal chapter reports will be no longer than three minutes per chapter. *No opposition, passed unanimously.*

4. Regarding CC meetings:
    - An increase of general membership meetings is needed.
    - CC meetings in general should be focused on business at the state level
    - Turn 2 CC meetings (December and April) into general CC meetings. This can be focused on bylaws changes, in depth chapter reports, up-to-date resolutions, and other updates.

Notes: Don says that we still have old business from the state meeting to address. He doesn't think it's a good idea to schedule a general membership because we already have so much to do on the CC. Bryan thinks it's a good idea to have more so we can involve more people in the business of the party, at the moment we are trying to improve the structure of meetings to make them more efficient and set the structure

so that can happen. Brittany is amenable to more general membership meetings so we can make changes to bylaws more than annually.

The issue was tabled by Matthew and seconded by Brittany. No objections.

5. Resolution on Palestine (Paul)
   - Discuss any request(s) for modification

Notes: The CC moved this item to be before the Jill Stein item.

Resolutions on Palestine, passed with consensus with two suggested changes

1. June's Suggested change: on Action #5:
Change 'Return the land and property stolen from Palestinians and reparations for their losses' to 'Call for the complete dissolution of Israel, with all of the land and reparations returned to Palestine.'

2. Also approved with a show of hands was to move the 8 actions called for in the resolution to the beginning of the document.

Paul proposed a change to #5. To make the proposed statement would not be practical and makes us look like we don't understand the situation there. There has been a lot of purchasing of Palestinian lands by foreign Jews and they took it away so it is very hard to untangle and make a blanket statement as proposed. Israel is not going to go away but reparations is needed. Matthew wanted to clarify that there was no mention of Jews in the change made. Kuma says we shouldn't avoid putting something in because it is too hard or not deemed possible, as that is very defeatist and in-line with what liberals do. Kuma also shared that the Palestinians they work with, this stance lands with them. Barb wanted to remind everyone that the decision about the language change was made by the whole MOGP. She doesn't think we can go against what was agreed by the MOGP at that annual meeting. We can revisit at the next one but not now.

Don agreed and that there was consensus that the state CC would do the wordsmithing as necessary and move the items up to the top of the document, as recommended by Bill Hastings.

Paul said he could go along with the decision made at the annual meeting even if he doesn't believe it is wise. He is also in agreement that we would condense it down for a press release.

Matthew asked who would be responsible for editing the resolution and adding the language. *Bryan volunteered to coordinate with Barb & Brittany to edit the document. No objections. Resolution passed as carried.*

Kuma volunteered to do the press release. But Bryan indicated that as the outreach chair he would be responsible for that as well.

6. Resolution on the Killing of Cuban Infants (Don)
    - Discuss any request(s) for modification

---

1. Morning Star's suggested change to add the following onto #6 of the resolution. This would be 'F'

F. We support sanctions against the US until the UN can successfully fulfill its investigation; (whether collective punishment of Cuban civilians constitutes war crimes and to prosecute all US politicians found guilty of such crimes) in lieu of a US/Israeli veto.

2. Move #6 to the top of the resolution. #6 would become #1.

Notes: Don suggested taking out the word from item 6 before it goes to item 1. He also suggested that F refers to E. He also noted that the appendix a/b/c nor the footnotes, should be mentioned in the press release but just on the website. Matthew agreed. Bryan agreed to work with Don to get the edits done. Brittany will coordinate with them to get it published to the website. No objections.

7. Jill Stein Trial 10/29 (Lauren)
    - Logistics behind mobilizing at the trial

Notes: Bryan suggested we move this item downwards to after the resolutions. Seconded by Kuma (Kuma was appointed as the Chapter Rep for Eastern Eco-socialists). Don is opposed to moving it down as the topic is pretty important for the state party. Bryan stated votes on the resolutions should not take as long as the Jill Stein issue. Don mentioned that the resolutions sent out did not include the amendments made after the meeting.

Matthew called the question again. There was opposition and it went to a vote. Those in favor: Brittany, Jerome, Kuma, Lauren, Bryan, and Matthew. Those opposed Paul and Don. No abstentions. This matter was moved to below the resolutions on the agenda.

Notes: Don mentioned that his chapter report would go into more detail about Gateway Greens interaction with Jill regarding the court case. They interviewed her and they urge everyone to read the article. They had a bunch of people supporting her in the courtroom, both Gateway and Eastern Eco-socialists. The judge was able to see there was a great interest in the case and we think that was critical. There was a conversation about the case and what to do moving forward. There will be a 9/29 program on Palestine with friends of Bethlehem and gateway greens, afterward Don will speak about Jill and why everyone should defend her. If you are outside St Louis, he encourages you and others to come to that program. Don passed to Elston to speak on the 10/7 program

speaking about fascism as it needs publicity and is important to the trial. Elston was unavailable, but there will be others on the panel including people from Minneapolis who have been working on the ICE issue, and Rasha who spoke at our annual meeting. Don & Jill are working on sign-on letters also and they really need funds of upwards $75k to pay for attorney & added costs.

Bryan raised a point of order that we didn't establish a time limit for these comments. Matthew says we will keep it to a minute and a half. Lauren shared that she added this to the agenda not to rehash what they've done on the matter but to discuss how we can address this as a state party. She said it seems we should have a statement from the state party on this matter, and how are we going to facilitate this mobilization.

Sue asked if the event Don mentioned is only in person or if it is on Zoom Don shared that only the 10/7 meeting will be on Zoom.

Brittany suggested that we work within our local chapters to mobilize to be there and not burden the St Louis folks with trying to figure out housing or such. Bryan agreed that he is willing to be there and work with his chapter on arranging to be there.

Sue asked if we know how long the trial is expected to last. Lauren shared that Jill has indicated 2-3 days but she is not certain.

Don said to send him an email if you intend to come and if you need housing or not, but if they are unable they will have a recommendation for affordable housing. He just wants to make sure we understand the court decorum. Bryan shared that he doesn't believe it will go past a day, but if we need to stay overnight Thursday, he is willing to do that. Lauren believes it will be likely Thursday & Friday.

Cris shared that when Jill was at the meeting she said what was at stake is a year & a half in jail and fines, but she said that this is a chance to defend our platform, Palestine and that it is important to raise money for the attorneys. Cris suggested staying over the next day even if the trial wraps in one day. Jill is working on a petition now with the attorneys. Lauren shared that the Eastern Eco-socialists have been working on that with Jill.

Brittany brought back up what Lauren mentioned about making a statement as MOGP. Bryan volunteered to handle that too. Don indicated that he is willing to help with that, but he said we need to make sure that what we say is consistent with what Jill and her attorneys say too. Lauren shared in the chat that her petition includes demands of WashU restoring good standing of the students arrested. Cris also mentioned that Jill shared she was the only one arrested at the action and that she felt it was a direct attack on her. Further discussion is tabled until the October CC meeting.

8. Proposed Bylaw Amendment (Brittany)
    - Creation of Technical Coordinator position with a standing technical committee
    - To be voted on during October CC

Notes: Sue stated such an item would have to be voted on at an annual meeting. Lauren added that we can hold a general membership meeting in advance of that to vote on bylaw changes though.

Proposed Bylaw Amendment

Proposing to amend the bylaws to include a technical committee led by a technical coordinator with a vote on the state CC. This amendment would be as follows:

> TECHNICAL COORDINATOR. The Technical Coordinator shall perform the following duties, with the assistance of a standing Technical Committee:
>
> 1. Manage the customer relations management (CRM) platform used by the MOGP to ensure proper operation, as well as permissions and access to the platform.
> 2. Manage the MOGP website, permissions and access to it, and collaborate with the Treasurer to maintain purchased domains.
> 3. Train members on how to use the features of the CRM platform that are relevant to their position.
> 4. Establish a privacy policy that will direct State Coordinating Committee members on how to securely share sensitive data and where to store it.
> 5. Devise an annual budget that documents the yearly expenses for the CRM, domains, website, payment processor and any other technical need; and share with the Coordinating Committee for inclusion in the MOGP annual budget.
> 6. Provide timely troubleshooting assistance to the membership with regards to the CRM and the website.

Notes: Don says there's no reason to wait until annual meeting to create a technical coordinator position, the CC can create a role anytime it wants but they just wouldn't have a vote on the CC, then when it's time for the membership meeting we could decide then whether it is a CC position. Paul seconded Don's comments, he said under NB they had such a committee but they were not voting members of the CC and they managed the technical side of the party, he is not sure we need such a position for the CC though. He said the CC could establish them and have over oversight of them.

Bryan disagrees, that the work of a technical committee & coordinator is a lot more time consuming and last year he pushed for this to be created last year due to a lot issues with the existing tech committee. He does say that this should be created as an officer position.

Paul agrees that that committee operated independently and there was a lot of secrecy. It is his fear that we will have a repeat of this if we create such a committee. He believes it's important to keep it under the outreach

coordinator's purview and to establish the committee under them, just so there is accountability.

Cris commented that the person heading the committee needs to be fully committed to the work of the Green Party and that they will protect the privacy of members. She sums it up that the person doing this role needs to be accessible and willing to teach people.

Bryan understands Paul's concern but if we make it an officer role that will put it more in the hands of the membership. He agrees with Cris that whoever takes the role needs to be an active member of the MOGP.

Don thinks Bryan's stated goal might contradict what he is wanting to achieve. If the person becomes a full voting member on the CC then they cannot do anything if they are unresponsive except expel the person which no one would want to do.

Bryan responded that you could say that about anyone on the CC though if they insubordinate.

Kuma suggested the bylaws be amended to address such a scenario.

Matthew suggested implementing a clause for a vote of no confidence in such a situation.

Jay agrees that recall votes could be a good thing for all positions.

Kuma asked if we could just call a meeting to update the bylaws.

Paul: wondered if there is any precedence across the national party for a technical coordinator to have a vote on the national level. He asked how California does it too.

Cris: doesn't believe technical stuff is included in the steering committee but they do have a part time staff that does all technical things for the national party. They were chosen on their expertise, and they are paid.

Brittany Vesey (she/her):❤️

19:22:37 From Jay Teutenberg to Everyone:
btw, Kuma, I try to appreciate the attention to procedures, even though it seems excessively bureaucratic, because I have volunteered for other states, and without the attention to procedures, it can be anarchy.

Chapter reports should be used to mobilize membership.

19:34:02 From Kuma Tk to Everyone:
Is there really a difference?

19:34:35 From Jay Teutenberg to Everyone:
the procedure arguments render CC meetings a total turn off to mobilize membership (with the meetings)

19:36:08 From Brittany Vesey (she/her) to Everyone:
I'm confused in the point being made

19:36:43 From Kuma Tk to Everyone:
Hes basically taking up time to tell us we don't have time lmao

I think it would be good to pull in more members to help with that work

19:36:59 From Kuma Tk to Everyone:
I think they call it.....a filibuster?

Hes saying the opposite

19:38:12 From Jay Teutenberg to Everyone:
I don't think we should delay the next general meeting, just have more cc meetings to get better prepared

19:39:49 From Jay Teutenberg to Everyone:
I think theres provisions for calling special general meetings
Bryan Lamble: ❗

19:40:36 From Jay Teutenberg to Everyone:
I also think it would make a lot of sense to move a lot of this to private channels on the MOGP discord server

20:24:33 From Jay Teutenberg to Everyone:
at some point, people are going to want to work on issues and want the same support they had in NB, and we need to make it a higher priority to get CiviCRM back to the same level

20:25:14 From Kuma Tk to Everyone:
Honestly I think Lauren should be the point of contact

Bryan Lamble, stan: ❗

20:31:44 From stan to Everyone:
Wash U is the Zionist university of the Midwest that abuses their own students is more likely

20:32:31 From stan to Everyone:
unless Don and others forgot about Wash U grad workers who were arrested by Wash U police years before the police assaulted Dr Jill Stein

Replying to "where are they?":
Ope....

20:39:43 From Jay Teutenberg to Everyone:

stan:💯

20:43:24 From Jay Teutenberg to Everyone:
I disagree with it being under outreach, it should be a position which is required to attend meetings to monitor all business for IT considerations

20:44:43 From Kuma Tk to Everyone:
Yeah....

20:49:14 From Jay Teutenberg to Everyone:
I'll be running for T.C., and while Im not at onsite events, I have been highly active on the IT issue. To say that a person needs to spend time on onsite issues as well as handle the IT is calling for a lot.

20:50:11 From Kuma Tk to Everyone:
He said his internet dropped

20:50:24 From Kuma Tk to Everyone:
Woooooo our chair is back

20:50:31 From Jay Teutenberg to Everyone:
I will say that I have not heard any Green positions IVe disagreed with, its just that my focus is on enabling greater technical success on ALL the issues.

Can we do it?
stan: ❗

20:51:43 From Kuma Tk to Everyone:
Then we just update the bylaws?
stan: ❗

20:51:49 From Jay Teutenberg to Everyone:
how about the bylaw include a recall procedure
stan: ❗

20:51:58 From Matthew to Everyone:
We could always do a vote of no confidence
stan: ❗

20:52:05 From Kuma Tk to Everyone:
True!

20:52:33 From Jay Teutenberg to Everyone:
I know a vote of no confidence would be enough to get my resignation, it takes cooperation from other people to do anything
stan, Bryan Lamble: ❗

20:52:35 From Jay Teutenberg to Everyone:
g
stan: ❗

20:52:50 From Jay Teutenberg to Everyone:

ammendments to the technical coordinator job description

Attendance at cc meetings should be required,

observe MOGP meetings and provide advice and support,

provide status reports of all Tech Committee projects at CC meetings,

documentation of all job duties / successor 'packet',
a) backup procedures / holders
b) password procedures / holders
c) sensitive financial information / holders

someone will need to be designated to hold the successor packet, as it will have passwords, in case the T.C. gets hit by a bus)

possibly consider recall procedures for T.C. if they violate a MOGP TC code of conduct, we can construct it by remembering the problems of the past. gatekeeping, skill/education hoarding, program access hoarding, abandonment of responsibilities, failure to follow the instruction of the CC.

possibly consider the creation of an MOGP technical support dept, which would mainly consist of a technical support ticket system, for the purpose of documenting and organizing support by incident or topic, also including zoom and phone support. A demonstration of the ticket system is available anytime if anyone is interested.

Possibly consider the moving of a significant amount of MOGP business to private discord channels on the MOGP discord server. Track down what email address the MOGP Discord server is registered under. Most likely secretary@greenskc.org

how to set a timer on a zoom meeting microphone

21:13:12 From Jay Teutenberg to Everyone:
AI Overview
You cannot set a timer to automatically mute or control your microphone directly in Zoom, but you can use the Zoom Timer App to run a visible countdown timer with an audio alarm for speaking limits. [1]
How to Use the Timer App in Zoom
Start or join a meeting on the Zoom desktop client.
Click the Apps button in the meeting toolbar (or look under the More menu if it is hidden).
Search for and open the official Timer app (or Timer App from the marketplace).
Enter your desired hours, minutes, and seconds, or choose a preset duration.
Click the audio icon inside the app to toggle an audio alarm sound for when the time runs out.
Toggle Show timer to all if you want other participants to see the countdown.
Click Start to begin the countdown. [1, 2, 3, 4, 5, 6, 7]
